Preparation for Higher Education Review (HER)

With the growing emphasis on publically available data and comparisons between HE providers, the QAA HE Reviews are growing in importance for providers wishing to improve their HE offer to students and parents alike:

A one/two day health check tailored to meet the development needs of the Organisation to:

- Provide support in the preparation and planning for Higher Education Review (HER)
- Raise awareness of the key issues relating to delivering HE in a college environment
- Provide examples of good practice relating to the quality code
- Help the organisation reflect on their practice and identify areas for development
- Reflect on the College SED, student submission and potential lines of enquiry.
