Aspiring to Excellence

Enhancing the Impact of Teaching and Learning Coaches

Achieving excellence in teaching, learning and assessment sits at the heart of any quality improvement strategy and those staff with a requirement to coach and train staff are instrumental to the overall quality of the TLA in an institution.

This workshop will incorporate training, exploring coaching models and strategies to maximise the impact of coaching and support for teachers. Training will be tailored to the individual needs of the organisation and can include strategy meetings with senior leaders as well as individual tutorials and action planning with coaches to develop their practice.
